Example with nozzle

Tube nozzle

Hose nozzle

Tube nozzles fit the OD and ID on the tube.

Hose nozzles fits the ID on the hose.

If the tube has OD 20 mm and ID 15 mm, (OD 20 and wall thickness is 2,5 mm). You should use nozzle CO-2025. The nozzles ID is little smaller than the ID on the pipe about 0,5 mm.

If you use wrong nozzle the projection can be damaged as it passes from the nozzle to the tube.

We can also manufacture nozzles according to customer specification. Max OD is 60 mm article no for this nozzle is CO-9050.
