

2808 Welding & Gas Hose

DESCRIPTION

Flexible twin hose for propane/butane and oxygen. Dividing groove allows easy separation.
Specially designed for industrial cutting and welding tasks.
Normally installed using hose clamps or swaged on fittings.

ADDITIONAL INFORMATION

Type no.	2808
Application	Oxygen / LPG (Propane / Butane)
Standard length	50 metres
Working temp.	-25°C to 80°C
Inside compound	NBR
Inside colour	Black
Outside compound	SBR
Outside colour	Blue/Orange
Reinforcement	PVA
Standards	EN ISO 3821:2019
Std. branding	-
