

RAM HOIST ACCESSORIES FOR DRUMS FROM 180 TO 220 kg

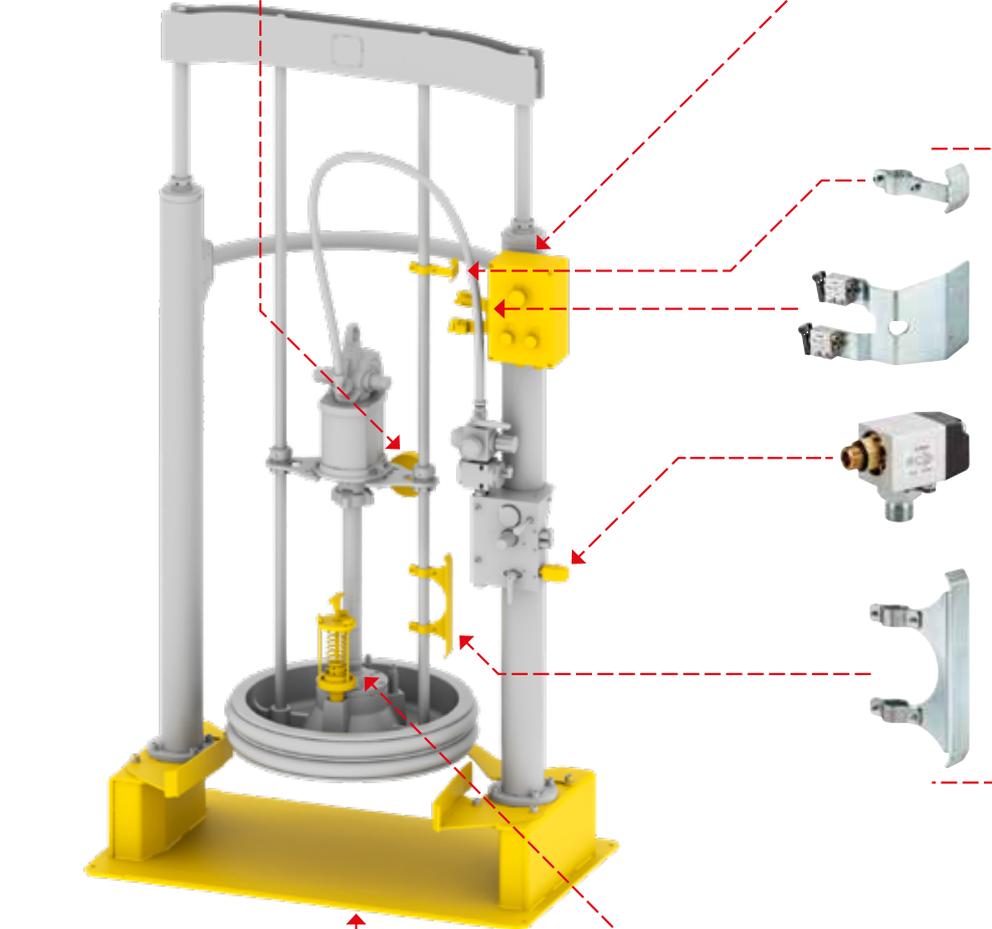

P/N 0E11/104
System maximum pressure relief valve (pump output), which can be manually set.

P/N 0E11/103
Outlet pneumatic system pressure relief valve (to integrate with p/n 0E11/140).

P/N 0E11/140
Hybrid electric-pneumatic control: features a system discharge timer manually settable, which activates valve p/n 0E11/103.

P/N 0E11/130
Pneumatic controls of the maximum and minimum drum's levels.

P/N 0E11/101
Hoist base for pallet accommodation to facilitate drum's substitution.

P/N 0E11/102
Visible air bleeder for fluid press hoist: eliminates air pockets inside the drum, leaving a clean environment.
