

NOZZLE TUBES

UMETA nozzle tubes in a straight or bent version allow for most simple, tool-free assembly by a polyamide butterfly nut, which guarantees an optimal sealing effect and which makes it possible to stabilize the bent nozzle in any desired position.

nozzle tubes with connection G 1/8 are marked by a blue butterfly nut

- nozzle tubes with connection thread 1/8-NPT upon request

110/G

- nozzle tube, bent
- with hydraulic coupler
- length 170 mm

Type	Connection	Ref. No.:
110/G	M 10 x 1	V000279
110/G	G 1/8	V000337

100/G

- nozzle tube, straight
- with hydraulic coupler
- length 170 mm

Type	Connection	Ref. No.:
100/G	M 10 x 1	V000044
100/G	G 1/8	V000155

110/S

- nozzle tube, bent
- with pointed nozzle
- length 154 mm

Type	Connection	Ref. No.:
110/S	M 10 x 1	V000316
110/S	G 1/8	V000285

100/S

- nozzle tube, straight
- with pointed nozzle
- length 154 mm

Type	Connection	Ref. No.:
100/S	M 10 x 1	V000247
100/S	G 1/8	V000253

110/H

- nozzle tube, bent
- with hydraulic nozzle
- length 150 mm

Type	Connection	Ref. No.:
110/H	M 10 x 1	V000103
110/H	G 1/8	V000375

100/H

- nozzle tube, straight
- with hydraulic nozzle
- length 150 mm

Type	Connection	Ref. No.:
100/H	M 10 x 1	V000076
100/H	G 1/8	V000055

95/G

- nozzle tube, bent
- with hydraulic coupler
- length 170 mm (6 1/2")
- without butterfly nut

Type	Connection	Ref. No.:
95/G	M 10 x 1	V000398
95/G	G 1/8	V000154
95/G	1/8 NPT	V000101

90/G

- nozzle tube, straight
- with hydraulic coupler
- length 170 mm (6 1/2")
- without butterfly nut

Type	Connection	Ref. No.:
90/G	M 10 x 1	V000074
90/G	G 1/8	V000054
90/G	1/8 NPT	V000072
