

Description

Item No.

ecoFILL-standard

Grease transfer pump for economic & clean filling of grease guns, includes a standard pail/drum lid (three radial thumb screws) and a follower plate.
Suitable for grease NLGI 000 - 2

(grease gun not included)

5-s for 5 kg pails (inner-Ø 165-200 mm)	33 805 02
10-s for 10 kg pails (inner-Ø 215-230mm)	33 810 04
15-s for 15 kg pails (inner-Ø 255-282 mm)	33 815 16
18-s for 18/20 kg pails (inner-Ø 265-285 mm)	33 818 06
20-s for 18/20 kg pails (inner-Ø 285-305 mm)	33 818 13
25-s for 25 kg pails (inner-Ø 300-335 mm)	33 825 06
50-s for 50 kg pails (inner-Ø 355-387 mm)	33 850 02
200-s for 200 kg drums (inner-Ø 550-590 mm)	33 854 08

ecoFILL-deluxe

The most efficient and professional method of filling grease guns.
Grease transfer pump includes a self-centering pail lid (special mechanism supports exact centred position of the pump) and a follower plate. Suitable for grease NLGI 000 - 2

(grease gun not included)

10-d for 10 kg pails (Innen-Ø 215-230 mm)	33 810 28
15-d for 15 kg pails (Innen-Ø 255-282 mm)	33 815 30
18-d for 18/20 kg pails (Innen-Ø 265-285 mm)	33 818 20
20-d for 18/20 kg pails (Innen-Ø 285-305 mm)	33 820 32
25-d for 25 kg pails (Innen-Ø 300-335 mm)	33 825 20
50-d for 50 kg pails (Innen-Ø 355-387 mm)	33 850 26

ecoFILL-deluxe „JOKEY“

for 18/20 kg JOKEY plastic pail

Item as described for ecoFILL-deluxe, but with self-centering pail lid with special claws to fit and secure grip on the JOKEY pail (Jet 2000)

(grease gun not included)

ecoFILL 18-d for 18/20 kg JOKEY plastic pail	33 817 07

Description

Item No.

Wheel Bearing Grease Packer for ecoFILL Pump

for easy and clean filling of roller and ball bearings with diameters of 19 mm to 200 mm

Wheel Bearing Grease Packer

33 790 70

Angled Filler Tube for ecoFILL Pump

to fit to ecoFILL transfer pumps, connects to filler nipple/air venting valve \varnothing 9 mm in accordance with DIN 1283, R 1/4" male thread

Angled filler tube for ecoFILL, thread R 1/4"

33 901 50

Description

Item No.

FP500

for 400 g Pull-Off Cartridges or 500 g bulk fill

filler gun painted, without connecting plug

FP500

34 602 28

FP500-S

for 400 g Pull-Off Cartridges or 500 g bulk fill

filler gun painted, **with** connecting plug (spigot type)

FP500-S

34 602 42

Manual Filler Guns

for centralized lubrication systems

Description **Item No.**

FP600-S for 400 g and 500 g Pull-Off Cartridges or 600 g bulk fill		
painted, with connection plug (spigot type) <div style="text-align: right; margin-top: 10px;">  </div>		
FP600-S		34 602 59

FP600-S-LS for 400 g Lube-Shuttle®, 400 g, 500 g and 550 g Pull-Off Cartridges or 600 g bulk fill		
painted, with connection plug (spigot type) <div style="text-align: right; margin-top: 10px;">  </div>		
FP600-S-LS		34 602 80

Lube-Shot 500-S for 400 g Pull-Off Cartridges or 500 g bulk fill		
galvanized, with connection plug (spigot type) <p>The version with 1/4" female thread can be used to e. g. refill single-point lubricators.</p> <div style="text-align: right; margin-top: 10px;">  </div>		
Lube-Shot 500-S		34 604 02
Lube-Shot 500-S, spigot with 1/4" female thread		34 604 88

Connector plug M26 x 1.5 with protective cap		
for MATO filler guns, spigot type, fits the standard fill-connectors of centralised lubrication system grease reservoirs		
Connector plug		33 902 66
Connector plug with 1/4" female thread		33 903 34

Connection unit for Centralized Lubrication Systems		
Fill-connector for centralized lubrication system grease reservoirs, fits the standard spigot type filler guns, incl. sealing and screwable protective cap		
M20 x 1.5		33 902 73
M22 x 1.5		33 902 97
3/4" - 16 UNF		33 903 03

Description

Item No.

centraFILL-standard

grease transfer pump for the filling of centralised lubrication system grease reservoirs, includes a standard pail/drum lid (three radial thumb screws), a follower plate and PVC hose, length 2.0 m, with quick release coupling according to ISO-Norm 7241B DN 6/1/4"

suitable for grease NLGI 000 - 2

5-s for 5 kg pails (inner-Ø 165-200 mm)	33 805 40
10-s for 10 kg pails (inner-Ø 215-230 mm)	33 810 42
15-s for 15 kg pails (inner-Ø 255-282 mm)	33 815 54
18-s for 18/20 kg pails (inner-Ø 265-285 mm)	33 818 44
20-s for 18/20 kg pails (inner-Ø 285-305 mm)	33 818 51
25-s for 25 kg pails (inner-Ø 300-335 mm)	33 825 44
50-s for 50 kg pails (inner-Ø 355-387 mm)	33 850 40

centraFILL-deluxe

grease transfer pump for the filling of centralised lubrication system grease reservoirs, includes a self-centering pail lid (special mechanism supports exact centred position of the pump), a follower plate and a PVC hose, length 2.0 m, with quick release coupling according to ISO-Norm 7241B DN 6/1/4".

suitable for grease NLGI 000 - 2

10-d for 10 kg pails (inner-Ø 215-230 mm)	33 810 66
15-d for 15 kg pails (inner-Ø 255-282 mm)	33 815 78
18-d for 18/20 kg pails (inner-Ø 265-285 mm)	33 818 68
20-d for 18/20 kg pails (inner-Ø 285-305 mm)	33 818 75
25-d for 25 kg pails (inner-Ø 300-335 mm)	33 825 68
50-d for 50 kg pails (inner-Ø 355-387 mm)	33 850 64

centraFILL-deluxe „JOKEY“

for 18/20 kg JOKEY plastic pail

item as described for centraFILL-deluxe, but with self-centering pail lid with special claws to fit and secure grip on the JOKEY pail (Jet 2000)

centraFILL 18-d for 18/20 kg JOKEY plastic pail	33 817 38
---	-----------

centraFILL-M mobile

item as described for centraFILL-standard, but mounted to a trolley for grease pails up to 50 kg. Dust cover in basic version, without screws or selfcentering mechanism, rests on upper pail edge.

15-m for 15 kg pails (inner-Ø 255-282 mm)	33 816 08
18-m for 18/20 kg pails (inner-Ø 265-285 mm)	33 819 05
20-m for 18/20 kg pails (inner-Ø 285-305 mm)	33 819 12
25-m for 25 kg pails (inner-Ø 300-335 mm)	33 826 05
50-m for 50 kg pails (inner-Ø 355-387 mm)	33 851 01
